

SPA SHIELD

SPA SHIELD creates a safe space between the customer and the operator, allowing the latter to perform facial treatments in comfort and tranquility.

*The SPA SHIELD is an Add-on item and is not sold on its own.
It can be purchased together with LEMI chairs.*

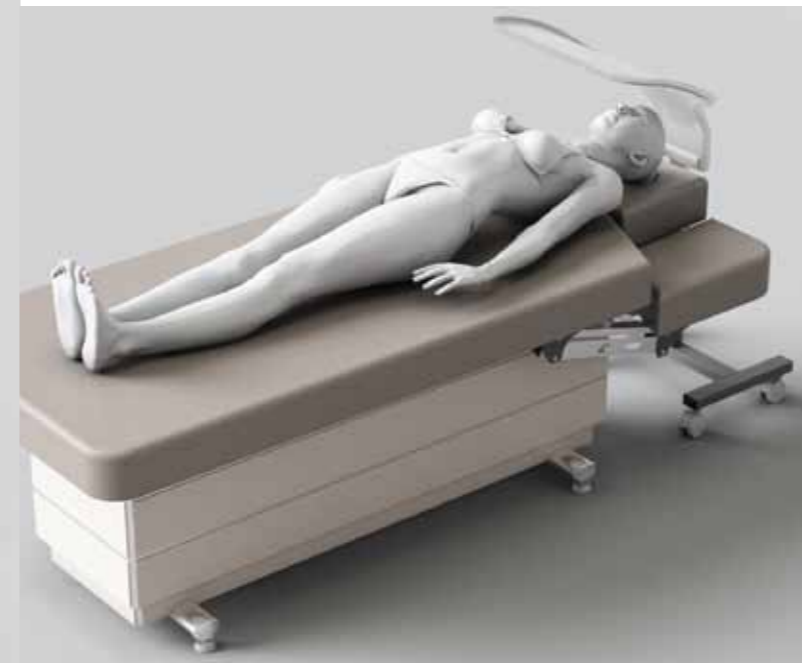

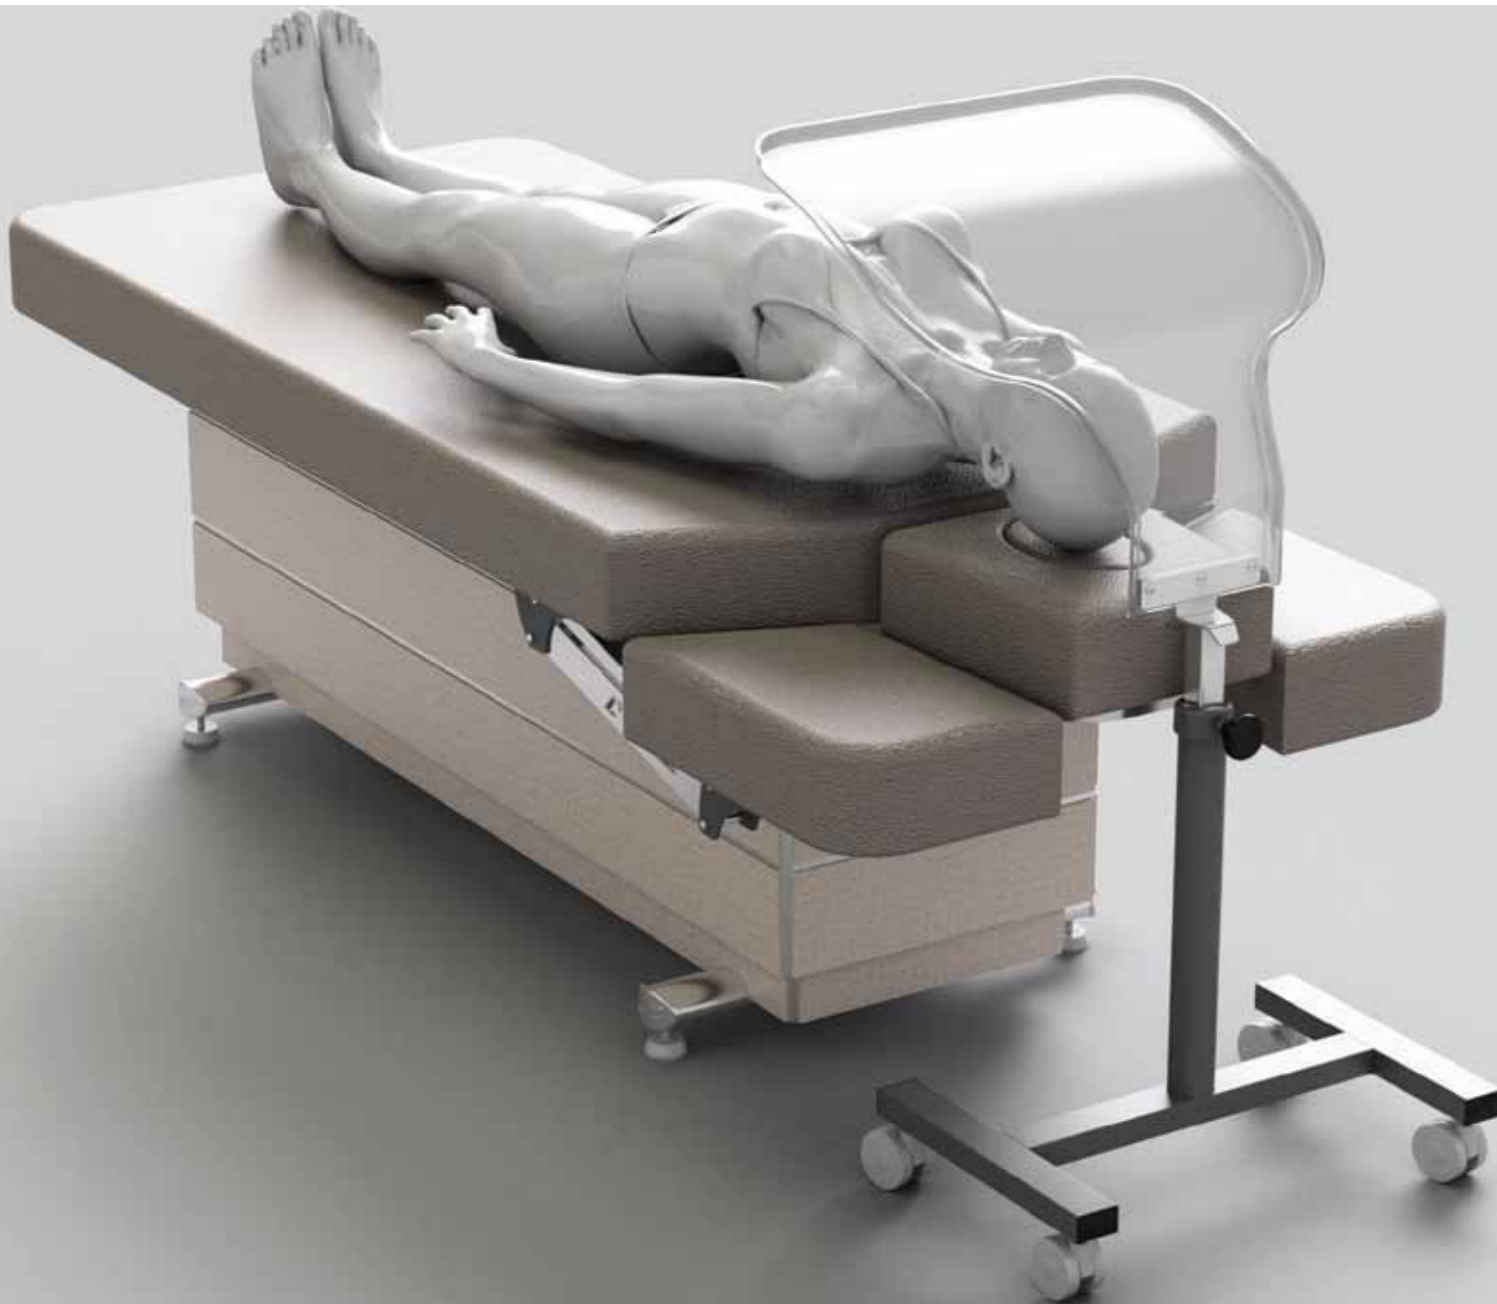

SPA SHIELD

SPA SHIELD

NEW

COD. 1025

LEMI is proud to present SPA SHIELD, the new essential tool for Spa cabins, specifically designed to guarantee the necessary protection for both operators and customers during any type of facial treatment. Its thermoformed plexiglass structure works as a real barrier against potential contamination and has been designed to leave the operator at ease during treatment, ensuring a safe and comfortable space for the customer. Height can be adjusted by a practical handy knob, while the solid structure of the painted metal base is equipped with rubber wheels with brake that facilitate its movement, ensuring maximum silence so as to give the customer the peace he needs during treatment. The simple but functional design of SPA SHIELD has been designed to be easily adapted to any spa table.

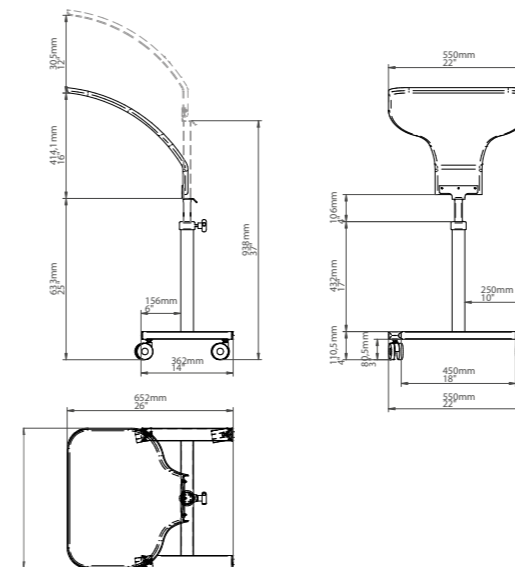

Focus on

- Thermoformed plexiglass protection
- Adjustable height
- **Base with wheels** for easy movement
- Maximum **comfort for the operator**
- Total **protection for the customer**
- Easy to clean and sanitize
- Suitable for any spa table

STAY
STRONG!

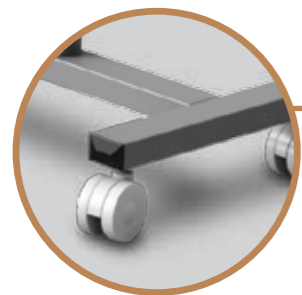

WE ARE ALL IN THIS TOGETHER.

PLEXIGLASS PROTECTION

ADJUSTABLE HEIGHT

BASE WITH WHEELS

SPA SHIELD BY LEMI

Now more than ever we have in mind how much a constantly sanitized and disinfected Spa environment is fundamental for the health and safety of both those who work there and guests who want to enjoy the Spa experience. The latter need to be in a place that conveys a sense of security and protection to them, that's why it is important to keep spaces and rooms visibly clean, ventilated and bright, since not only will they be more appreciated aesthetically but they will contribute to making guests' stay in the Spa an experience of total relax.

For this reason, LEMI wanted to make **SPA SHIELD** available to support the work of the therapists, giving them the opportunity to create a safe space that allows them to perform freely, while making the client feel comfortable during the treatment within the cabin.

SUITABLE FOR ANY SPA TABLE
